## THE SNUG

Vessel Sunk.

New York, March 15.—One of the sailors of the Oregon, this morning said that right after the collision the bulk of the sailing vessel was seen drifting slowly by on the port side of the steamer, grazing her sides as she passed astern. It was thought she sank as soon as she cleared the Oregon; as none of her crew was found, he presumed they had all been drowned.

Death of Ex-Governor Irwin.

SAN FRANCISCO, March 15.—The death of Ex-Governor Irwin was not unexpected. For a long time past he has been suffering from Bright disease, which caused his death. He leaves a widow and a daughter and an estate valued at about \$20,000. He was aged fifty-nine.

Nominations.

WASHINGTON, March 15.—The president today nominated the following: Zephaniah Q. Hill to be United States marshal for the district of Colorado; and Miles Goodman postmaster at Virginia City, Nev.

Stockholders Meeting.

Las Vegas, N. M., March 15, 1886. Notice is hereby given that the annual meeting of the stockholders of the Agua Fria company will be held at the office of the company in this city on Wednesday, March 15, 1886, at 3 o'clock p. m., for the election of directors and such other business as may come before the meeting.

L. P. BROWN, President.  
F. A. MANZANARES, Secy. A. P. Co.

## EVENTS OF THE DAY.

The Strike on the Southwestern Railroads About Ended—Jay Gould's View.

The Cleveland Knights of Labor Inaugurates a New System of Boycotting.

CONGRESSIONAL.

SENATE.

WASHINGTON, March 15.

After a brief discussion of the house bill increasing the pensions of widows and dependent relatives of deceased soldiers, the senate adjourned out of respect to the memory of Representative Hahn.

HOUSE.

WASHINGTON, March 15.

Immediately after reading the journal the house adjourned out of respect to the memory of Representative Hahn.

The Texas Pacific.

DALLAS, Texas, March 15.—Receivers Brown and Sheldon have received notice from United States marshals that the Texas and Pacific railroad is now open from end to end. At Big Springs eighty-eight mechanics have gone to work in the car shops, and meeting with no opposition. At Marshall it is said that the company will put men to work this morning. All trains are moving on the Trans-continental division.

SHERMAN, Texas, March 15.—March 15th and five deputies left last night for Dallas, with four prisoners, charged with contempt of court in attempting to obstruct traffic on the Texas and Pacific.

ST. LOUIS, Mar. 15.—It is asserted in railroad circles that a circular emanating from the St. Louis assembly of the Knights of Labor was served this afternoon on representatives of all roads centering in East St. Louis, demanding an increase of wages for all shop and yard men, stating if the demand is not complied with by next Thursday the men will be ordered out.

BOYD, Texas, March 15.—Three freight trains arrived from the east yesterday, and two were sent out. The yards are full of transfer freight.

LITTLE ROCK, March 15.—Today a bill was filed by the attorney of the St. Louis and Iron Mountain railroad against J. S. Delay, and others representing the Knights of Labor, alleging their seizure and mutilation of their property and obstruction of the business of the M. & I. Co., and asking for an order restraining all parties from trespassing on their property and interfering with the business of the Company. Chancellor Carroll granted a temporary restraining order.

JACKSONVILLE, Fla., March 15.—Jay Gould today, speaking for the first time respecting the strike by the Knights of Labor on the Missouri Pacific, and the remaining portion of the Gould southwestern system, said to a representative of the Associated Press: "I first learned of the strike while at Havana, and have been advised by telegraph of the character and trouble, more particularly since my arrival here. The strike on the Missouri Pacific was a complete surprise for two reasons. First, we have needed to all demands which had been made on us by our employees, and were supposed to be working in harmony with them. The second strike is made upon an issue with which we have nothing to do, and which we cannot possibly arbitrate or control. The present strike," continued Mr. Gould, "originated in the discharge of an employee named Hall on the Texas and Pacific, which road was in the hands of the United States court. We have no right to attempt to control the workings of that system than the working men themselves, and would be as completely in contempt to attempt to do so as any other outsider." Regarding another aspect of the strike Mr. Gould said: "The public may not be aware of it, but the same issue was raised when some men were discharged on the Warrenton railway at the time when it was in control of the United States court. Mr. Powderly called upon me to secure the reinstatement of these. The subject was fully discussed and I told Powderly I had no power in the matter, without a request from the court. At that interview I told Powderly that if any grievances existed among our men, if he would bring them to our attention, we would endeavor to right them." As to the future Mr. Gould said: "I am advised that a great number of strikers are not in sympathy with the movement and will return to work as soon as assured of protection by the civil authorities. It is our intention to resume operation as soon as the protection is afforded." In conclusion, he declared that he did not once care to discuss other features of the strike, beyond the statement that the company could not possibly join hands with the Knights of Labor against the United States supreme court in their war on another system which he asserted the present strike involved. Mr. Gould further asserted that the Knights of Labor had evidently discovered through public sentiment that they were exercising their power in favor of an issue entirely against the law and order, and that it was more of a war against the general public than the road, as it was closing manufacturing along the lines of the road, was stopping shipments of coal and other commodities to points where people were liable to suffer great deprivation. It was more a fight of the public than the company, but the latter in protection of its own lawful rights, would exercise every lawful energy to meet the demands of its patrons in opening the road in all departments. Mr. Gould said he was in receipt of telegrams from manufacturers and others along the line saying that they would be compelled to shut down, but at the same time placing no blame on the company or its management.

CHICAGO, Ill., March 15.—The largest reduction yet made in passenger rates to the Pacific coast went into effect today. A cut of \$10 on both first and second class was obtainable, and

this evening arbitrator Wilson of the Chicago, St. Louis & Missouri river passenger association, issued a circular announcing net rates from Chicago to California point by all lines as follows: First class \$38.50; second class \$17. The Northwest St. Paul roads today restored passenger rates east from Council Bluffs \$2.

ST. LOUIS, March 15.—The Union Pacific announces open rates for first class tickets between Missouri river and California points at \$23, and \$12 for second class.

NEW YORK, March 15.—It was generally conceded by railroad men today that a conference had practically taken place between Trans-continental officials and that the trouble would certainly be ended this week. It is expected that the final touches will be given to the agreement tomorrow.

Boycotters.

CLEVELAND, March 15.—The boycott of J. F. Sieberling by the Trade and Labor assembly at Akron Ohio assumed a new phase today when all working house keepers were informed that they would be boycotted if they gave shelter to workingmen imported to take the place of striking molders at the Empire molder and reaper works. A boycott of the scientific men of the had to supply dwelling and business house owned by Sieberling in Akron, if not vacated at the expiration of the present lease. The Trades assembly of Chicago have also been notified to take similar action regarding the buildings owned by Sieberling in that city. Ferdinand Schumacher, owner of the Windsor, who has opposed Sieberling in the courts, came to the latter's rescue with an offer to furnish accommodations for all the imported workmen, even the had to supply them with coats in the hall the hotel. The feeling on both sides is growing very bitter.

Prize Fight.

NEW YORK, March 15.—Dempsey and LaBlanche fought thirteen desperate rounds at Rye, on the border between New York and Connecticut. The men used soft kid gloves and were both badly punished, Dempsey's body being terribly beaten up while LaBlanche's face was beaten into a jelly. The fight was given to Dempsey, he having proved the scientific man of the two.

LEADVILLE, Colo.—A prize fight between Bryan Campbell, of Leadville, and Jack Carrigan, of Silverton, was fought here Sunday evening. Carrigan won. The battle lasted one hour and five minutes, the rounds being fought in the next to the last round Campbell knocked one of Carrigan's seconds down and a great fight commenced but was soon stopped by a dozen policemen who jumped into the ring with drawn revolvers. The men were quite severely pounded in the fifty-first round and Campbell was unable to come to the scratch.

Body Found.

LEADVILLE, March 15.—News has reached this city of the finding this afternoon of one of the dead bodies in the snow slide which covered the track and some laborers several weeks ago near Frisco. The names of the corpse is unknown. Some people claim that six or seven were lost.

On a Strike.

PITTSBURGH, March 15.—Several hundred striking miners of the Irwin district assembled at Irwin, Pa., at 1 o'clock this morning, and headed by a brass band marched to the Manor Valley mines. The band and the working colliers to join the strike. All the mines are now idle.

Chaffee's Funeral.

DETROIT, March 15.—The Evening Journal's Adrian special says: The funeral of Ex-Senator Chaffee in this city yesterday was largely attended.

New Councils.

WASHINGTON, March 15.—The president has recognized Enrique Jariello as consul general of Guatemala, at New York; Yoshida Jongoi, consul general of Japan at New York.

WASHINGTON WAIVES.

Ex-Governor Michael Hahn, representative in Congress from the Second district of Louisiana, died suddenly this morning at the Willard hotel of hemorrhage of the lungs.

The committee on agriculture today instructed Commissioner Hatch to report favorably a bill prepared by him amending the act established by the bureau of animal industry, and providing for the suppression of contagious diseases among cattle. The limit of twenty persons as the number of employees to be allowed in the bureau of animal industry is repealed and the number is left discretionary with the commissioner of agriculture. The amendment to the bill in section three which relates to the suppression of contagious diseases and infectious diseases is amended as follows: That it shall be the duty of the commissioner of agriculture to prepare such rules and regulations as he may deem necessary for the speedy suppression of such diseases, and to certify such rules and regulations to the executive of each state and territory and invite said authorities to co-operate in the execution and enforcement of these acts. Whenever the plans and methods of the commission of agriculture are approved by any state or territory in which pleuro-pneumonia or other contagious, infectious or communicable disease is declared to exist, and whenever the governor of the state, or other properly constituted authorities, signify their readiness to co-operate for the extinction of any contagious diseases. In conformity with provisions of this act the commissioner of agriculture is hereby authorized to spend so much of the money appropriated by this act as may be necessary in such investigation in paying for slaughter, as herein after provided. It is provided that the commissioner of agriculture shall cause a special investigation to be made as to the existence of pleuro-pneumonia, throat and mouth disease in any part of the United States where he may have cause to suspect their existence, and upon the discovery of any of these diseases the commissioner of agriculture shall cause the same to be destroyed and pay the owner not to exceed three fourths of such amount as the appraiser may determine to have been the value before being destroyed or exposed, out of any moneys appropriated for this purpose, in case compensation be allowed for any animal slaughtered under the provisions of this act, that may have contracted, or have been exposed, to such diseases in a foreign country; nor shall any compensation be allowed the owner of an animal whereby reasonable diligence he could have prevented his animals from becoming exposed. The present act is amended so as to transfer the duty of guarding against these diseases in the District of Colum-

bia to the commissioner of agriculture. The bill makes an appropriation of \$250,000 to carry its provisions into effect.

Major Hill, commissioner of three American expositions, has received the following letter from United States Consul General Clay Armstrong, dated Rio Janeiro, February 12: Aliante Barroso, a Brazilian war ship so named in honor of an officer distinguished in the Paraguayan war, will sail from this port for New Orleans on the 20th instant, having been prevented by unavoidable delay from carrying out its original intention of a much earlier departure. She is now making extensive preparations to that end. Special interest is attached to her latest cargo, which is a Brazilian product, pure and simple, having been built in the government yard here, and none save Brazilian material entering her construction. She is a fine vessel and would do honor to the naval armament of any great European power. Centro De Comercio and E. Savoura have forwarded collections of Brazilian productions on the steamers Humana and Hipparchus which left here for New Orleans January 19, and today respectively. These collections will no doubt constitute an interesting piece for the Portuguese-American at the exposition, but as you can readily see, the collection will gain vastly in importance and impressiveness by the presence of this magnificent man-of-war, as it will take Almirante Barroso some thirty days to reach New Orleans.

FOREIGN FLAMES.

DUBLIN, March 15.—It is stated that many Irish constables will resign if the force is placed under the control of an Irish parliament.

BERLIN, March 15.—Immense snow-falls are reported in Silesia. Several persons have been killed, and the inhabitants obliged to dig their way out. Five children were frozen to death while going to school.

LONDON, March 15.—Bell, the sculptor, was today found guilty of misdeemeanor of having obtained money of St. William Abby by false pretenses, and was sentenced to one year imprisonment at hard labor. His brother Walter, jointly indicted with him, was acquitted.

LONDON, March 15.—The Globe this afternoon states: At a cabinet meeting held Saturday Mr. Trevelyan, the secretary of Scotland and Edward Hancoc, chancellor of the duchy of Lancaster, both tendered their resignations. The reasons given by both were their disinclination to support the Irish policy now outlined.

DUBLIN, March 15.—Parnell publicly urges members of the Nationalist party in Ulster to refrain from celebrating St. Patrick's day by demonstrations, such as parades, as likely to anger Orangemen. In a circular advising this course the Irish leaders say: "Do not irritate Orangemen, however misguided you may deem them. This is of vital importance now."

LONDON, March 15.—The Standard says: It is supposed Gladstone's scheme for the government of Ireland proposes the establishment of a single chamber of parliament at Dublin, and embodies the principal of many reforms in Ireland. Ireland will continue to send members to Westminster not in proportion to her population, but in proportion to her contribution to the imperial revenue. Under this scheme there would probably be thirty Irish members of parliament. Parliament police are to be under the control of the government of Dublin. A provision is made for the use of imperial forces who needed for the security of life and property.

Lord Charles Berrisford, Conservative, moved that in view of the large number of workmen out of employment, and the cheapness of labor at the present time, it be a resolution to suspend the sinking fund in order to place the navy in a state of efficiency.

LONDON, March 15.—Mr. Gladstone occupied his usual place in the house of commons this afternoon. He looked tired and nervous, and made a number of motions looking toward the rehabilitation of silver as a currency standard were postponed. Mr. A. J. Mandella, President of the Board of Trade, announced that different British consuls in New York had been instructed to inquire into the alleged frequency of crimping of British seamen in America, and to take the necessary steps to protect them from the practice in the future. Mr. Gladstone stated that the government had decided to decline to appoint a special commission to inquire into the advisability of transporting the surplus population of Great Britain to the colonies.

LONDON, March 15.—Mr. Gladstone authorized a statement that he will take no notice of various versions of his Irish plans that have recently been given the public. He says that all stories that have been published regarding his intention to withdraw from Ireland are entirely baseless. It is understood that the premier hopes to be able to present his Irish programme in the house of commons on Monday next.

PARIS, March 15.—The chamber of deputies by a vote of 370 to 100 adopted a resolution today declaring that the chamber feels confidence in the determination of the government to make such amendments to mining laws of the country as the existing state of affairs in the mining regions show are necessary, and that the government will safely guard both the rights of the state and the interests of labor. M. DeFreycinet, prime minister on behalf of the government accepted the resolution and stated that the reform in mining laws projected by the government would be based on law and justice.

Decasville miners have resolved to continue the strike.

Sarah Bernhardt's Hamlet is a failure. She will replace it tomorrow by Fedora. The Temps says that the amount of the new loan is 1,464,000,000 francs, not 1,000,000,000 francs previously stated.

PARIS, March 15.—The chamber of deputies today voted a credit of 200,000 francs for the proposed Pasteur institute.

VIENNA, March 15.—Willenbacher, the public hangman is dead. He held the office twenty-four years, and during that time executed but thirty-six persons.

Austria has decided to prohibit the teaching of Old Catholicism in any school in the empire.
